

Proletariat Sin Cabeza

By Jose Revueltas

I. Organic Expression of the Proletariat – Marxist Personalities and how we are Political Actors, or just Political People

I mean a Marxist is supposed to be a Marxist. He is supposed to express the proletariat. I also mean the modern working class. As a Marxist there can be no crisis in living, unless we are being non-expressive. I mean then the non-expressive is also expressive. Something like a leader or fine leader then. See this as a process of expressing the working class.

II. Bourgeois Lives in the CPM (Mexico)

I mean there is just bourgeois discourse in CP Mexico. I also mean they are too bourgeois and elite. The realism of politics is a solving of their crisis.

III. Politics

I want politics to be expressive and political. Thank you.
